STATE OF KANSAS MOVES TO PHASE 5 OF COVID-19 VACCINE DISTRIBUTION PLAN

Finney County, Kansas – Governor Laura Kelly announced last week that starting today, Monday, March 29, the state of Kansas will enter Phase 5 of the vaccine prioritization plan and make the COVID-19 vaccine available to all Kansans. **COVID-19 vaccines are now available to any person who lives or works in Finney County 18 years of age and older.**

Governor Kelly, in her Friday, March 26 news release said, “I strongly encourage every Kansan to get the COVID-19 vaccine so we can get back to school, back to work, and back to normal.”

COVID-19 vaccinations are given at the Finney County Fairgrounds Exhibition Building (3i building), 409 Lake Ave., Garden City, KS 67846. Appointments or Walk-Ins are currently accepted. Appointments can be scheduled through one of six communication methods found at www.finneycounty.org/COVIDHub. The walk-in schedule is available via Finney County Health Department’s Facebook page and website. Walk-in hours may vary week to week, and will be released each Friday for the upcoming week. Please bring identification (driver’s license, Matricula Consular Card, etc.) to the clinic for both walk-ins and appointments. Masks are required.

Thank you for the overwhelming support as we continue to vaccinate residents as quickly as possible. We encourage residents who have not been vaccinated to schedule an appointment or come to the Mass Vaccination Clinic to receive a vaccine.

Please continue to practice preventative actions as newly eligible residents receive vaccinations. Practice social distancing and stay six (6) feet away from other people. Wear a facemask in public spaces. Wash your hands often with soap and water for at least 20 seconds and regularly sanitize frequently used items.
