**10. Meeting Adjournment**

# LEPC

---

Meeting Minutes

Date: 08/11/2025

Time: 11:30 PM – 1:00 PM

Location: Finney County Emergency Operations Center

## **1. Call to Order**

- Called to order by: Courtney Prewitt

## **2. Attendance**

## **3. Approval of Agenda**

- Motion to approve agenda: Kristi Newland  
- Second: Kent Pottorf  
- Outcome: Approved

## **4. Approval of Previous Meeting Minutes**

- Motion to approve minutes from previous meeting: Kristi Newland  
- Second: Kent Pottorf  
- Outcome: Approved

## **5. Reports**

- President's Report: A QR code has been created from the confirmed roster to track attendance, which will be transferred to the correct form. The county commission must approve this before it is sent to the State. It was noted that all individuals should be correctly classified under their respective categories, with participation open to everyone. Additionally, agriculture and public works infrastructure categories need to be added.

*- Committee Report:*

Responsibilities as a group for the LEPC are listed on the KDEM website. One of the primary duties is to review the local emergency operations plan at least once per year, as it is one of the most important items. Having information available on the county website is also an item that needs to be addressed.

Appointments of officers need to be reported to the County Commission. Clarification is needed on the reporting process, and this will be addressed in future meetings.

- A recommendation was proposed to meet monthly versus a quarterly basis for six months.

Andy Crittenden made a motion to meet monthly.

Kristi Newland second

- *Vice-Chair Report: Tier II*

Sixty-nine Tier II reports were received and will be compared to the last five years. Reports are submitted by email or certified mail. A Tier II working group will be created, and Gene Robertson, Paul Reseley, and Erin Stillwagon were added.

Casey Howard made a motion to approve the Tier II working group

Nathan Haeck seconded the motion.

- *Emergency Management Report:*

*Paul Reseley*

1. A local electric company lost 6 gallons of transport oil
2. Private citizens reported losing 15 gallons
3. Incident of 180 gallons of used oil spill during a storm but did not make it to the drain.

- An amendment to the bylaws was presented regarding the position of secretary. If a secretary is appointed in the future, an amendment will need to be made to the bylaws and presented to the members for a vote.
- Tom Marchant, FICO GIS, gave a presentation on shelter locations. The map shows where the shelters are located and divides them into storm and warming shelters. It can also be sorted by distance. There was interest in adding hours of operation.

- Kacy Quintana, City of Garden City  
Gave a presentation on a grant for tornado sirens. They have been working on gathering information to apply for a federal grant for the last 6–8 months to upgrade and replace the sirens. Each siren costs approximately \$60,000, and there are 27 sirens in Garden City, most of which are 30 years old. The new sirens will be battery backup.

## 6. Announcements

- Rachelle Powell, from the Airport, gave an update on training opportunities. The tri-annual full-scale exercise will be held on September 17th, 2025, from 9:00 AM to 11:00 AM. There will also be a pre-meeting on August 27th at 11:00 AM in the airport conference room. They are requesting volunteers.
- Garden City Fire Department will be holding First Aid/CPR classes on Saturday once a month. Overflow will be sent to Emergency Management and EMS.
- FEMA classes 100 & 200 are available online. The links will be sent out to your email. A FEMA ID is required.

## 7. Open Discussion

The airport is now classified as a diversion airport, so large planes could be diverted to Garden City.

Highway Patrol is conducting active shooter training and is currently seeking locations where they can hold training.

Red Cross has responded to five calls this month.

## 8. Adjournment

Next meeting will be September 8<sup>th</sup>, 2025, 11:30 AM - at Fire Station number 3

Paula Hertel – American Red Cross will present on shelters.

Casey Howard made a motion to adjourn

Kent Pottorf made a second motion.

No discussion, motion passed.

Snow storm emergency last winter had a lot of benefits of all working well together , continuous phone updates was a great benefit and everyone went home/ want to focus on preparedness for Airport emergencies and haz-mats / Need volunteers for Airport exercise

FEMA training is coming up and will be pushed out to all , this is free training

Next Meeting 08/21/2025

A dramatic photograph of a large, dark, funnel-shaped tornado in a rural landscape. The tornado is positioned in the center-left of the frame, with its base touching the ground and its top curving upwards into a massive, dark, billowing cloud. The foreground is a field of dry, golden-brown grass. To the right, there's a dirt road and a few small buildings, including a silo. The sky is filled with dark, heavy clouds.

# EMERGENCY SIREN

---

# UPGRADE

# BACKGROUND

Notes:

# TYPES OF WARNING SIRENS

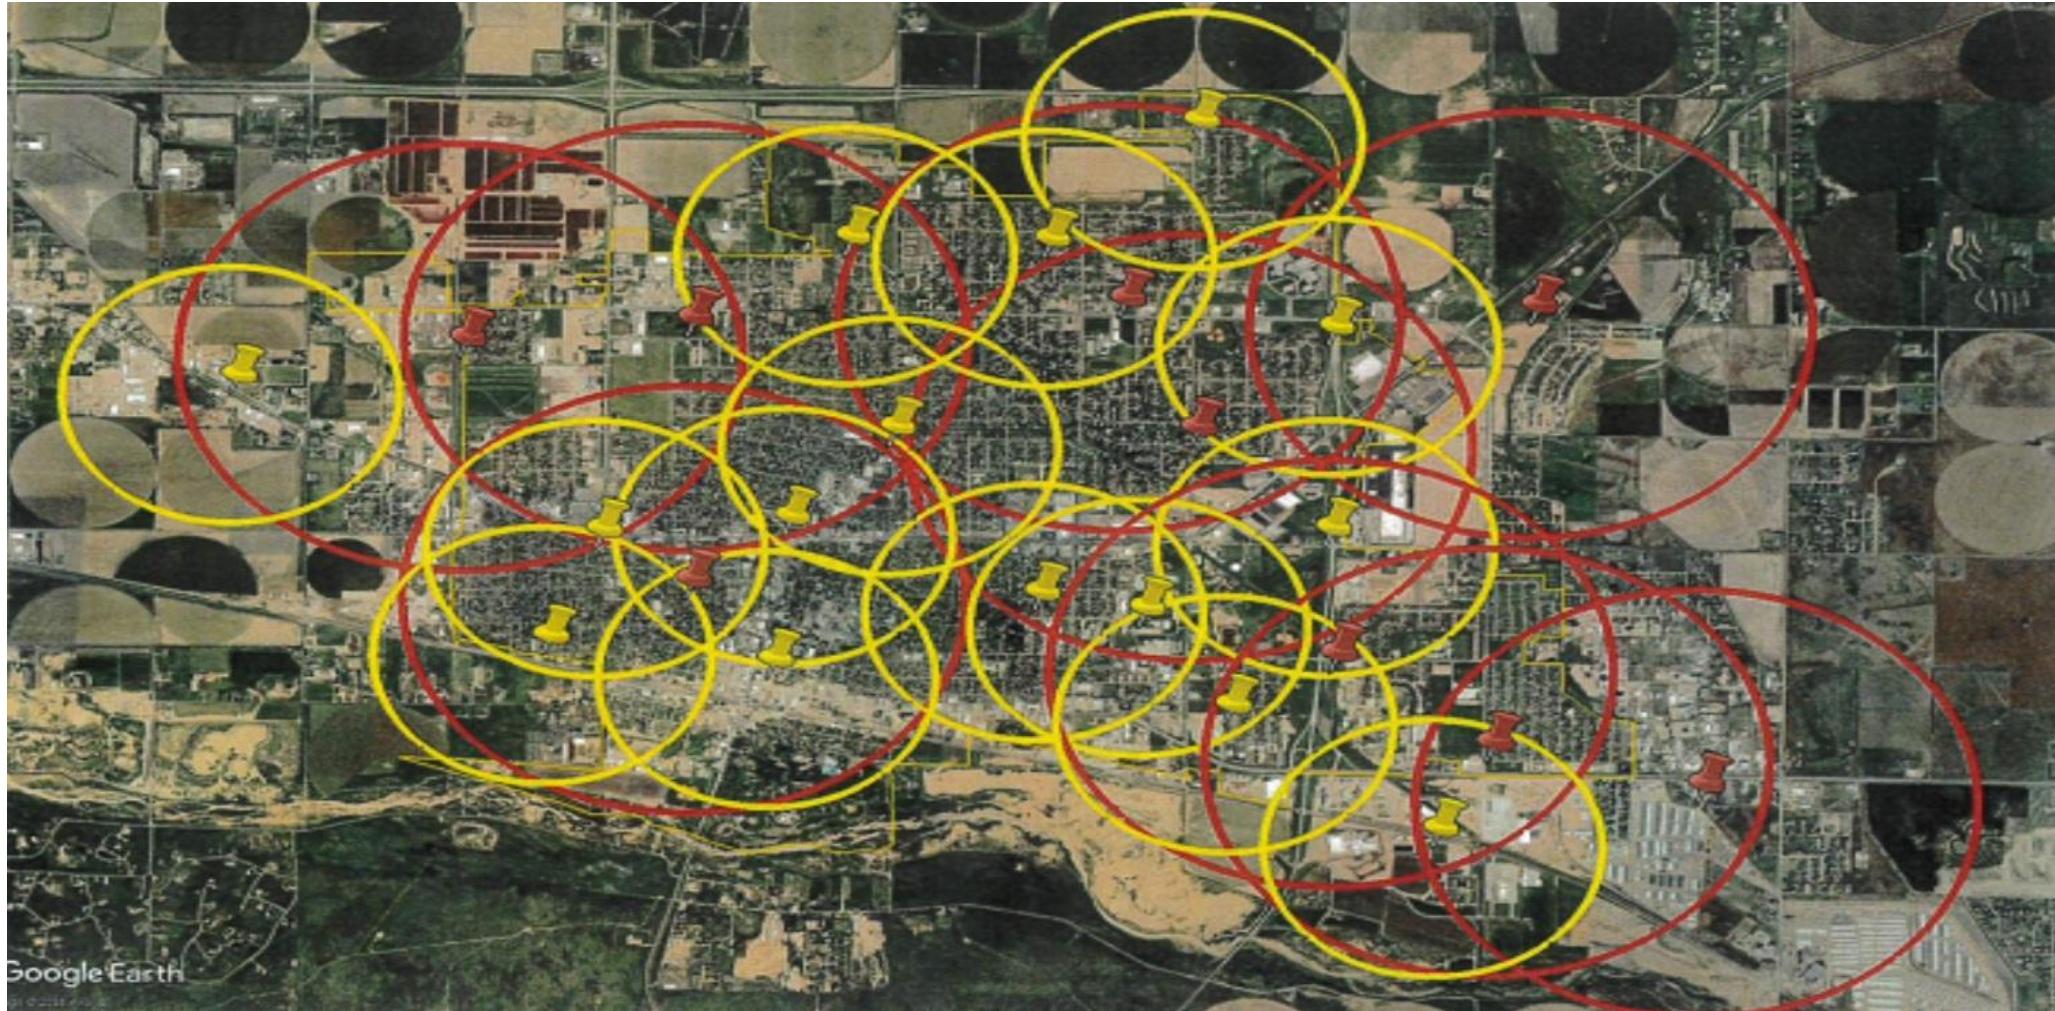

---

- Audible vs Wailing Tone
- Mobile vs Stationary

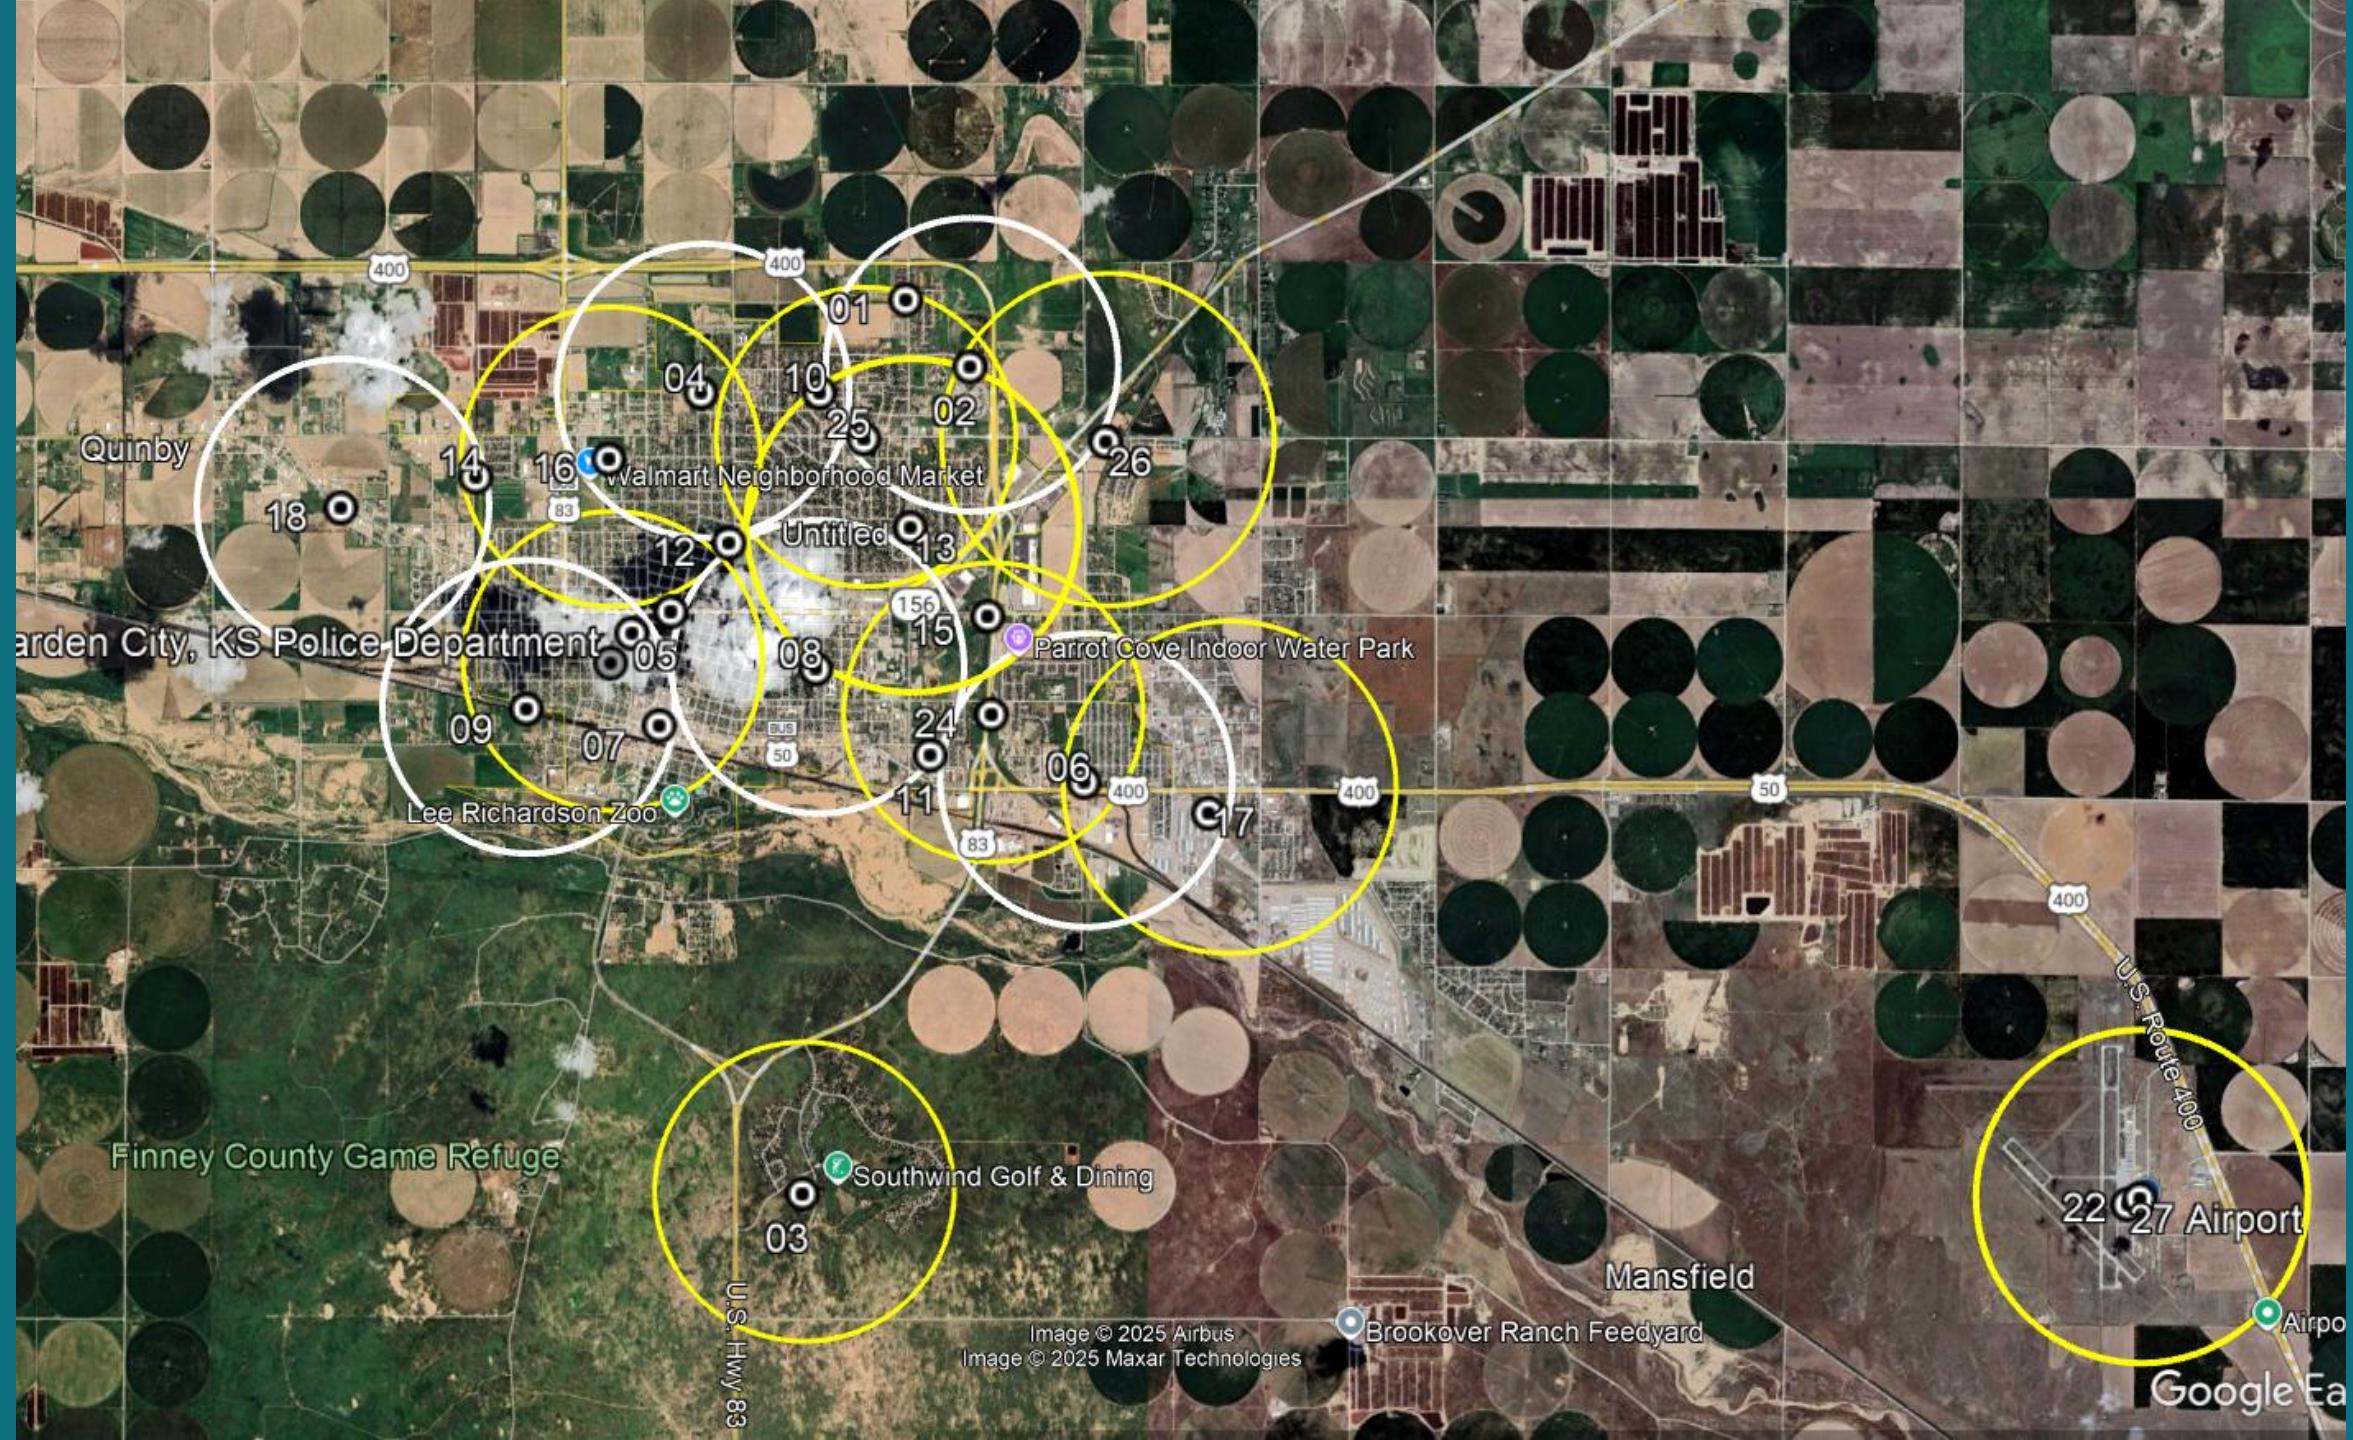

# Outdoor Warning Coverage Study for the City of Garden City, Kansas

Approximate Coverage from All of the Existing Storm Warning Sirens

- Siren coverages are approximate and assume perfect conditions.
- Actual coverages may vary based on local terrain, conditions, foliage, structures and other unknown conditions.
- Sentry Siren makes no guarantee that coverage shown will mimic actual, real-world, coverage.
- Coverage area is based on computer generated data and FEMA Guidelines covering atmospheric attenuation.
- Data subject to license and use/reproduction is restricted.
